

Ardpatrick National School

Substance Use Policy

Scope of Policy

This policy applies to students, teachers, auxiliary staff members, users of the school premises, visitors, i.e. every person who enters the building. It is applicable during school-time – including breaks and to ALL school related activities. It applies to the school building and grounds and to any area where a school related activity takes place, e.g. School Tour.

Aims of Policy

The aim of the substance use policy of Ardpatrick National School is primary prevention. We aim to protect our pupils from the harmful effects of substance misuse and try to prevent them from using tobacco, alcohol, solvents and illegal drugs. We aim to develop in our pupils' better self-esteem, through providing a positive school climate and atmosphere and through giving our pupils age appropriate information from educational programmes.

Relationship To School's Mission, Vision And Aims

The characteristic spirit of this school has been developed and agreed with our partners in education. This substance use policy reflects the school policy by:

- Drawing together teachers, parents and Board of Management members for formulating the policy
- Including reference to substance use in the enrolment policy
- Including reference to substance use in our Code of Discipline and School Rules

Rationale

Why is this policy necessary?

The world in which we live presents young people with many challenges, which affect their health and well-being. Exposure to alcohol, tobacco and drugs is part of this reality. Schools need to reflect upon how they might provide for the needs of their student cohort and respond appropriately to what are sometimes sensitive and emotive issues.

The Education Act 1998 provides that schools should promote the social and personal development of students and provide health education for them. The National Drugs Strategy '*Building on Experience*' is now government policy and it requires schools to have a substance use policy in place. The recent report from the National Advisory Committee on Drugs entitled '*Drug Use Prevention*' (November 2001) underlines the importance of schools developing substance use policies.

The 1999 European School Survey Project on Alcohol and other Drugs (ESPAD) Report highlighted the seriousness of the problem among sixteen year olds in Ireland, as compared to the other 29 ESPAD countries surveyed. Alcohol was identified as being the dominant drug misused in Ireland whilst the use of tobacco and other drugs was above the ESPAD average.

For the population as a whole, alcohol consumption per capita in Ireland has increased by 41% in the period 1989 to 1999, while the other EU Member States showed either a decrease or a modest increase. Ireland now has the second highest per capita consumption of alcohol in the EU.

The school authority in Ardpatrick National School has a moral and legal obligation to ensure compliance with the criminal law.

Ardpatrick National School

incidents under the scope of this policy they should inform the teacher, Principal or a Board member.

The role of the Board of Management is to:

- Ratify this policy
- Implement this policy
- Monitor and evaluate it
- To sponsor/provide training for staff members
- Make decisions involving critical incidents
- To deal with the media in the event of a critical incident.

This policy puts the following procedures in place to deal with an incident requiring medical intervention:

- 'Universal Precautions' will be applied; e.g. wearing of proper protective gloves etc., washing and making safe an area after an incident; provision of a yellow bin to dispose of needles or other unsuitable appliances
- First Aid training has been given to a staff member who is now qualified and certified to assist with medical emergencies
- Copies of all relevant phone numbers are appended (see Appendix 1)
- A local doctor from a local practice has agreed to respond to a medical emergency in the school
- The Board of Management has implemented a Critical Incident Policy.

The school has established an excellent rapport with the local Garda station and will invite representatives from the local Garda station to speak with senior pupils. Whether or not to inform the Gardai of minor incidents will be at the discretion of the Principal and the Chairperson of the Board of Management, but they will be involved in any serious substance abuse incidents.

At local level the following support agencies are available to which students involved in substance misuse might be referred:

- N.A. (Narcotics Anonymous)
- Child Care & Family Support Services
- Drug Education Officer
- Drug Helpline
- Juvenile Liaison Officer
- Community Garda

1800 341 900

In the event of media interest in relation to a 'drug related incident', the matter will be referred to the Board of Management and the Chairperson will issue a prepared statement to the media.

Management of Persons in the Workplace Under The Influence of Drugs and/or Alcohol

The Board of Management shall ensure, so far as is reasonably practicable, that pupils and other persons in the workplace are not exposed to risks to their safety, health or welfare from persons under the influence of drugs and/or alcohol. The term "in the workplace", in the preceding sentence includes all school related activities taking place under the supervision of a teacher, with the Board's approval, and both within and away from the school premises.
